SKILLS AND COMPETENCES

HTML/CSS

Very good. **8-year experience**, ability to write correct, semantic code "by hand", with respect to general **usability/accessibility** rules and standards. **CSS - perfect**. Knowledge of CSS 1.0/2.0/3.0, ability to deal with browser bugs. HTML and CSS-based user interface design and building experience.

JAVASCRIPT

Ability to solve moderately-complicated issues and build application interfaces based on pretty **DHTML**. Experience in **script.aculo.us**, **MooTools** and **jQuery**. Not afraid of DOM/Events.

OTHERS

Understanding of **PHP** syntax. Basics of **Python** and **MySQL**. Experience in **Django**, **Smarty**, **PHPTal** and similar templating engines, as well as **SubVersion** revision control system. Additionally, good knowledge of **Photoshop at an advanced level**. A bit of **design skills** ;-)

After work...

HOBBIES

Reading RFCs, "Discworld", avoiding Internet Explorer's CSS bugs, writing tips and articles for beginner web developers, playing pool.
